

## 50% FASTER FINANCIAL PERIOD CYCLES BY IMPLEMENTING SAP HANA

### BUSINESS GOALS

A large personal line insurer wanted to consolidate BW systems to a Digital Enterprise Platform to improve efficiency, and reduce maintenance cost, complexity, and data redundancy. With ever increasing data volumes, they needed a robust framework to help them derive information from data for taking key business decisions.

### BUSINESS BENEFITS

<b>50%</b>	FASTER FINANCIAL PERIOD CYCLE CLOSING
<b>80%</b>	REDUCTION IN DATABASE SIZE
<b>30%</b>	PROJECTED SAVINGS IN TOTAL COST OF OWNERSHIP

### CHALLENGES

The main challenges faced by the client were:

- Growing data volumes and evolving business needs affected the financial period cycles
- Complex and fragmented legacy application landscape in BW across lines of business

### SYNTEL'S SOLUTION

As a part of this engagement Syntel developed:

- Provided roadmap for digital modernization using SAP HANA
- Migrated 13TB+ data from Oracle DB to HANA DB
- Multi-step BW upgrade to SAP HANA
- Testing automation using HPQC and QTP
- Optimized SAP BW functionalities and data flows post migration to HANA
- Simplify BW landscape to improve efficiency, reduce maintenance cost, complexity, and data redundancy

#### About Syntel

Syntel (Nasdaq:SYNT) is a leading global provider of integrated information technology and knowledge process services. Syntel helps global enterprises evolve the core by leveraging automation, scaled agile and cloud platforms to build efficient application development and management, testing and infrastructure solutions. Syntel's digital services enable companies to engage customers, discover new insights through analytics, and create a more connected enterprise through the internet of things. Syntel's "Customer for Life" philosophy builds collaborative partnerships and creates long-term client value by investing in IP, solutions and industry-focused delivery teams with deep domain knowledge.
